lecturer Can Çelebi · can.celebi@univie.ac.at
tutor Mari Edilian · mari.edilian@univie.ac.at
office hours by appointment via e-mail
e-mail personal matters only · answered on weekends (unless urgent)

> when & where

lectures Wed + Thu, 18:30–20:00 · Hörsaal 6, Oskar-Morgenstern-Platz 1, 1st floor (27.01: HS 4)
tutorials Wed, 16:45–18:15, right before the lecture · from 14.10
14.10 HS 9 · 21.10 HS 9 · 28.10 HS 5 · 04.11 HS 9 · 11.11 HS 5 · 25.11 HS 9 · 02.12 HS 9 · 09.12 HS 9 · 16.12 HS 9 · 13.01 HS 14 · 20.01 HS 16
christmas break 21.12.2026 – 06.01.2027
deregistration until Wed 14.10.2026, 23:59 (u:space)

> materials

slides can-celebi.github.io/micro-business · link also on Moodle
open them on your laptop or phone in class: polls and practice questions are inside
problem sets Moodle
book Robert Frank, *Microeconomics and Behavior* · optional: everything you need for the problem sets and exams is covered in class
math derivatives (incl. partial) · constrained optimization · inverse functions
refresh them with the “Math recap” PDF on Moodle (section Introduction)

> problem sets

· 11 problem sets, shared with the German group. Answers are multiple choice or a number.
· Deadlines (Moodle has the binding date and time):
PS1 Mon 12.10, 12:00 · PS2 Mon 19.10 · PS3 Wed 28.10 · PS4 Wed 04.11 · PS5 Mon 09.11 · PS6 Mon 30.11 · PS7 Mon 07.12 · PS8 Mon 14.12 · PS9 Mon 11.01 · PS10 Mon 18.01 · PS11 Mon 25.01

> grading

problem sets
15%

midterm
40%

final
45%

To pass, both conditions must hold:

1 total $\geq 50\%$

2 (midterm + final) / 2 $\geq 50\%$ · problem sets cannot rescue weak exams

Grades: **1** above 87% · **2** above 75% · **3** above 63% · **4** above 50%

> exams

midterm **Thu 19.11.2026**, 18:30–20:00 · HS 1 / 6 / 14 · covers everything up to cost minimisation
final **Thu 28.01.2027**, 18:30–20:00 · HS 4 / 6 / 14 / 15 / 16 · covers everything
aids none
both exams are common with the German group (Group 2)
retake February 2027 (date tba) · harder, open questions
only if you took at least one exam *and* handed in your problem sets

> communication

announcements Moodle · announcements
questions Moodle · forum (others likely have the same question) · or ask after class

> topics (tentative)

part 1 · the benchmark: competitive markets

- 1 thinking like an economist: scarcity, costs, opportunity cost, sunk cost, marginal reasoning
- 2 supply and demand: equilibrium, shifts, taxes
- 3 consumers: budget, preferences and utility, optimal choice, demand
- 4 producers: production, cost minimisation ← midterm up to here
- 5 costs, supply and competitive markets: equilibrium and welfare

part 2 · when markets are not like that

- 6 monopoly and price discrimination
- 7 oligopoly
- 8 externalities and public goods
